Shaping future innovators in Engineering & Technology

SRMIST's engineering programs endeavor to be at the forefront of innovation. They also foster multi-disciplinary collaborations aimed at solving the most pressing global problems.

Our mission is to seek solutions to global challenges by using the power of engineering principles, techniques and systems. We believe that engineers should not only possess deep technical excellence, but also nurture creativity, cultural awareness and entrepreneurial skills that come from exposure to science, business, medicine and other disciplines – all integral part of the SRM experience.

Our goal is to deliver world class, solutions driven programs that inspire curiosity and generate new knowledge and discoveries. Our collaboration with over 50 of the world's best universities and 215 corporates, strengthens our academic and research programs.

Unlock your potential with our programs

Students seeking Inter-Disciplinary programmes and flexibility in course curriculum will find just that at SRMIST.

A student shall have an option of choosing any one of the following pathways:

1. Major
2. Major with specialization
3. Major with Minor or Major with specialization and a Minor

The core philosophy that is practiced in SRMIST as part of the teaching-learning process is Inter-Disciplinary Experiential Active Learning (IDEAL)
